

The Social Network For Fitness & Health

Sparcs

Senior UI/UX-Design

Description

Looking for your next challenge? Join our young and disruptive startup during the most exciting phase and have a real impact shaping the market for fitness & health.

Sparcs is the most social fitness & health app, building on the power of social engagement to help everyone achieve a more active lifestyle. We are looking for an experienced and entrepreneurial Mobile UI/UX Designer to join our interdisciplinary team and co-create a unique app experience. Your primary responsibilities include (1) gathering and evaluating user feedback, (2) creating smooth and intuitive user flows, as well as (3) crafting breathtaking visuals and interfaces.

Ideally, you

- Care deeply about your craft, down to every last detail
- Bring a great level of empathy to understand users, their pain points, and desires
- Stay up-to-date on the latest and greatest design principles and trends — and can translate them into exceptional work
- Have 4+ years experience working in mobile product design
- Are proficient with tools like Figma, Adobe Illustrator, Adobe XD, ...
- Have prior experience with health & fitness products and/or social networks
- Have the willingness to improve yourself, the team, and the workflow towards excellence
- Bonus (but not necessary): Illustration, Brand Identity Design, Motion Design, UX Copy

Our offer

- Competitive salary and the opportunity to participate in the company's success through our stock option plan
- A professionally nourishing and creative working atmosphere
- Modern office with everything you need to bring your best work to life
- Flexible working hours
- Visionary, experienced, and entrepreneurial team of nerds and crazies
- Teambuilding activities (did you ever play games in VR?)
- Unlimited coffee & fruits to fuel your creative energy

And, above all, the opportunity to build the #1 social network for a better and more active life.

Ready for the adventure? Reach out, we can't wait to meet you! 🙌
